New to town and need a doctor? Out of town and need a doctor? Looking for the best place to have joint surgery? For all your healthcare research and decisions, now there's only one place you need to go – and it's as close as your computer or mobile device.

**Found on your MyQHealth member portal, Care Finder™ helps you find and compare** healthcare providers and facilities so you can make informed choices about the care you'll receive. Checking cost and quality rankings in advance can save you hundreds or even thousands of dollars and ensure you receive the best possible care.

### Find a PROVIDER

Search by provider name, facility name, ZIP code or procedure.

**All search results are in-network\***, meaning your insurance provider has negotiated discounted rates for members of your benefits plan.

### Compare COSTS

Even in-network costs for providers and services can vary significantly. Estimated costs for providers, facilities and procedures are based on the amount health plans have typically paid on claims in your area, from the lowest cost to the highest. The "Fair Price" is the amount you can reasonably expect a medical service to cost.\*

### Compare QUALITY

These rankings reflect provider and facility performance across multiple criteria, including patient outcomes. Provider Quality Rankings also reflect compliance with standards of care and are updated annually.

 Facilities This Doctor May Use	 At or Below Fair Price	 Highest Quality
	 Slightly Above Fair Price	 Average Quality
	 Highest Price	 Lowest Quality

\*You should verify a provider's network status prior to your visit, as they sometimes switch networks. While you're at it, you can ask them for an estimate of your anticipated out-of-pocket costs for the procedure.
